

“ My word is my bond ”

For more than 160 years, the Group has continuously been a leader in the field of maritime bulk transportation and logistics whilst branching out and forging partnerships with leading industrial Groups around the world.

We are also a fully integrated shipowner, offering all services from ship design to maritime operations managed by our crews, who represent about half of our personnel.

Our know-how together with the quality and skills of our crews and office-based personnel are well known to our clients. We have always honoured our commitments.

Edouard Louis-Dreyfus
President

KNOW-HOW

A long and successful experience in maritime activities, ship management and logistics strengthened by the ISO 9001 certification.

An ability to achieve the objectives in terms of safety, deadline and cost.

REACTIVITY

A key to success in a world of extreme competition.

High levels of flexibility and adaptability to better meet our clients' needs and expectations.

INNOVATION

A leading role in the advancement of technology, environmental protection and business structures.

Innovative solutions for onshore industrial Groups wishing to create new activities at sea.

COMMITMENTS

To be bound to our word.

To promote the French flag and a fleet respectful of the environment.

BULK DIVISION

DRY BULK TRANSPORTATION

CAPE TO HANDY

A core fleet of 30 bulk carriers from Handysize to Capesize vessels, with a capacity ranging from 28,000 to 180,000 tons, operated by **LD BULK**, a subsidiary of the **LOUIS DREYFUS ARMATEURS Group**.

INNOVATION

New generation vessels - Capesize and B.Delta37 Handysize vessels - incorporating technological innovations designed to minimise fuel consumption and CO₂ emissions for a better economic and environmental efficiency.

PARTNERSHIPS

Strong and trustful partnerships with other major industrial Groups sharing our values and in particular the respect of the word given.

PORTS & LOGISTICS

LOGISTICS MANAGEMENT

Integrated services through a global approach. One-stop solutions providing maritime logistics services across the full life cycle of projects: consulting, designing vessels and operating.

TRANSHIPMENT, BARGING, HARBOR TUGS

Transshipment and barge transportation of liquid and dry bulk with 13,000 DWT self-propelled barges, floating cranes, harbor tugs and sets of tugs and barges through our subsidiaries **LD Ports & Logistics** and **SLM Maritime**, both based in South East Asia.

PORT OPERATIONS & MANAGEMENT

Logistical support to integrated maritime projects in India through our subsidiary **ALBA Asia**. Management of bulk ports including coal, fertilizers and general cargo terminals.

OPERATIONAL SUPPORT DIVISION

INTEGRATED SERVICES

MARINE INDUSTRIAL DIVISION

SUBSEA & ROV OPERATIONS

SHALLOW WATERS & ROV OPERATIONS

Submarine cable laying and burials activities, submarine cable protection experience, using the know-how of **Louis Dreyfus TravOcean**. In-house design and construction of ROV and tailor-made subsea equipment.

MARINE RENEWABLE ENERGIES

Unique expertise in submarine cable installation and protection in shallow waters, covering all types of sea beds as well as all cable types (fiber optic, power cables or umbilicals) for the MRE sector, among others.

SERVICES & DEVELOPMENT

CABLE LAYING & MAINTENANCE

Cable vessel management and fleet development as Alcatel-Lucent Submarine Networks' long term partner. A fleet including the most advanced cable layers in the world allowing to better answer the expected growth of the telecom market.

PROJECT MANAGEMENT

Tailor-made maritime solutions and project management thanks to a high level of adaptability - a quality which has always been one of our most recognised strengths - and thanks to our values and the skills of our crews and office-based personnel.

HEAVY & SPECIALISED CARGOES

MARITIME LOGISTICS

Strong background in industrial projects and recognised expertise in creative shipping services leading to engage in heavy and specialised cargoes transportation for Airbus Group. A fleet of «aircraft carriers» for a maritime logistics organisation managed by **LD Seaplane**.

OPERATIONAL & COMMERCIAL MANAGEMENT

Management of the international and multimodal logistical planning by coordinating the sea, river and land transport system. Multi-sites transportation logistics for Airbus Group in Europe, Tunisia and the USA and sea routes optimisation.
